

INTRODUCTION

The MPB School Resource Guide is designed to assist teachers and other school personnel in identifying and utilizing appropriate instructional television programs in the classroom. The Instructional Television Series/Programs are listed alphabetically, by curriculum area. Each series description contains pertinent information about the series, I.E. grade level, number/length of programs, tape duplication, taping rights, and individual program titles. We again have added block feed start and stop dates and times to program descriptions. Please check our Web site at www.mpbonline.org for last minute programming changes.
